- Starting Tools:**
1. Magic Mask
  2. Hand Washing tools
  3. Hand Sanitizer tools
  4. Social Distancing tools

# THRIVE

**QUARANTINE**  
-Lose 1 turn  
-Restart at 19

**WINNER:** The player who thrives the longest based on number of trips around the board after a time limit (e.g 45 min.), plus number of tools remaining.

# THRIVE

## The Board Game

COVID-19, or the Coronavirus, goes everywhere to plague the world. So does Glitter.

**GLITTER:** If you've ever received a greeting card that has glitter on it, you understand the image. As you open the envelope, glitter goes everywhere. Once you come in contact with glitter, there's no getting away from it. In fact, during WWII, glitter replaced Christmas candles during night blackouts because it could serve as a far less obvious means of reflecting light. COVID-19 is more contagious even than glitter because microscopic germs spread everywhere but you can't see where it's landing.

**ABOUT A VIRUS:** Think of a virus as a tiny invader particle that's even smaller than one cell in your body. Cells have the important job of being building blocks for the body in their independent ability to replicate. A virus can't replicate on its own but needs a host cell.

If someone coughs or sneezes on you, one teensy virus particle can land in your nose or mouth. That single particle can find a host cell in your body and latch on. Now the virus can duplicate itself and keep spreading throughout the body. As the virus replicates and attaches to other host cells, you start feeling awful.

But your immune system comes to the rescue! Special immune cells attack the invader viruses either by being hotter than the virus (you have a fever) or by creating mucous so you sneeze, blow your nose, or cough to drive out the invaders.

Once the symptoms show up – meaning when you begin to cough or sneeze or blow your nose – the virus has been at work replicating in your body for several days. With COVID-19 you could have the virus for 2-14 days, not know it, and be passing it on to others.

**SPREAD OF COVID-19** occurs in moisture droplets, so that's like glitter. COVID-19 is teensy particles that go all over and spread.

**PRECAUTIONS:** You don't want to spread COVID-19 and you don't want to get COVID-19. We know all the outlined precautions to take, like washing our hands frequently or wiping down surfaces that we touch. Minimizing the spread of moisture droplets is the key. Face coverings are part of the anti-COVID-19 regimen and work only if they fit snugly.

**“THRIVE” BOARD GAME:** The object of “Thrive” is to see how many times you can get around the board, meaning that you are surviving the pandemic. To help the journey each player receives several tools at the start, such as one Magic Mask, three hand sanitizer tools, two hand washing tools, and four social distancing tools.

Complicating the journey are Minnie Mask, someone whose mask doesn't cover her nose; Mr. Cough, someone who wears no mask and coughs on others; and GLITTERRA who covers the earth with deadly glitter. GLITTERRA is everywhere at once. Use precautionary tools to avoid these enemies.

The winner is the player who has the highest score: add the number of times around the board + the number of tools remaining.

## Board Game Instructions and Score Sheet

### EACH PLAYER STARTS WITH:

- ◆ An invisible Magic Mask that fits snugly so moisture droplets can't get in or out
- ◆ Several virus-combatting tools
- ◆ Game board and score sheet

### PLAYERS PROVIDE

- ◆ A marker for each player to go around the board
- ◆ 1 die

### HOW TO PLAY

- ◆ Decide how long the game will last (e.g. 45 minutes)
- ◆ Markers begin on the “New Day” Start
- ◆ Roll the die, move that many spaces, and follow the instructions on each square
- ◆ Each player uses the score sheet (below) to keep track of tools and trips around the board

**THE WINNER** is the player with the highest score at the end of the game's duration. Add the number of trips around the board plus the total number of tools remaining when the game ends.

## THRIVE Board Game Score Sheet

Hand Washing Tools      Hand Sanitizer Tools      Social Distancing Tools      TRIPS AROUND THE BOARD

2                                      3                                      4
